

## Breaking Weight Bias, Press release 4 - September 2022

The Breaking Weight Bias project is ending in two months' time (30 November 2022). For this reason we would like to present the results that have been produced over the two-year duration of the project. They are available on the project website:

- [BWB Training course](#)
- [Dynamic Demonstrator](#)

### 3rd project meeting

On the 14th of September 2022, the Breaking Weight Bias' consortium met in the wonderful Athens for their 3rd Transnational Partners Meeting!

The meeting represented a nice opportunity for partners to meet in person for the first and (unfortunately) the last time since the beginning of the project.

Topics covered during the meeting mainly concerned the finalisation of the 2nd Intellectual Output, multiplier events, the outcomes of the piloting activities and finally, all the tasks relevant to the finalisation of the project.

## Multiplier Events

In each partner country, **Local Training Promotion Events** will be held. The main aim of the event is to generate awareness among the target groups about the project results, the Breaking Weight Bias Training Program and Tools comprising.

Some of the partners held local workshops in early September and were met with great interest and positive feedback from the target group. We estimate that a total of more than **260 participants** will take part in the workshops.

**Stay tuned and follow our hashtag #BreakingWeightBias on social media!**
